Overview

The SEADA FG-DB Series Motorised Retractable Monitors and microphones are state of the art exquisite monitors that are made from aluminum. To ensure the finest ergonomics and the best viewing angle it has a vertical motorised movement that can be tilted from 0°to 45°. FG-DB series comes in three different sizes of 15'',17'' and 22'' to satisfy different users' need.

This system can be used as a standalone unit in class rooms, offices, receptions etc. In addition, it can operate as a multi units' system with the SEADA built-in DB paperless conference system. The DB system enables participants to share their onscreen content with the rest of room via a single button pressing.

When it is not in use, the monitor and microphone can be retracted into the housing beneath the desk. This makes the desk surface tidy as well as putting the monitor in a safe and secure location.

Features

➢ Motorised retractable monitor
➢ Motorised retractable gooseneck microphone
➢ 0 to 45 degrees of adjustable screen
➢ Content sharing ability
➢ Two buttons control
➢ Ergonomic design
➢ Integrated PC USB Port
➢ Optional Touch screen
➢ Support HDMI/DVI/VGA inputs
➢ Stylish design
➢ RS485 controlling
➢ Support power socket daisy chain
