

SC-MF Modular Connectivity Box with Cable Retractors

Overview

The SC-MF Series is a next-generation modular table connectivity platform engineered for high-performance collaborative environments. Built around a fully interchangeable module architecture, it enables integrators to configure power, data, video, network, and charging interfaces to meet the exact requirements of any meeting space or workstation.

Precision-designed access mechanisms ensure a clean, unobtrusive installation, while advanced cable-retraction technology provides reliable, clutter-free cable management beneath the table surface. The tool-free snap-in module system and quick-release mounting locks streamline installation and servicing, allowing rapid deployment without specialized tools.

With extended cable reach, smooth pull-and-lock operation, and automatic tensioned retraction, the SC-MF Series delivers a robust, user-friendly interface for professional AV, IT, and power connectivity.

Ideal for corporate boardrooms, coworking hubs, educational facilities, executive offices, and hospitality environments, the SC-MF Series offers a versatile, future-ready solution for modern spaces requiring dependable modular connectivity.

Key Features

- **Modular Swappable Interface:** Supports a wide range of interchangeable modules including power sockets, USB data ports, HDMI, RJ45, 65W PD charger and so on.
- **Concealed Connectivity Access:** Soft-action pocket doors and lift-up access panels provide discreet port coverage and maintain a clean tabletop appearance.
- **Integrated Cable Routing System:** Under-table cable retractors ensure organised cable guidance, directing wiring neatly through the desk, floor, or wall structure.
- **Toolless Module Installation:** Precision snap-in tabs allow modules to be inserted and secured without screws or tools, enabling rapid configuration changes.
- **Quick-Release Mounting Locks:** Butterfly-style clamps secure the chassis to the underside of the table without the need for screwdrivers, ensuring fast and reliable installation.
- **Extended Cable Reach:** Retractable modules provide up to 1.5m of usable cable extension for flexible device placement.
- **Pull-and-Hold Cable Control:** A user-friendly pull-and-stop mechanism maintains the desired cable length without continuous tension or retraction force.
- **Automatic Cable Return:** A light pull activates smooth, tension-controlled retraction back into the housing for tidy cable management.
- **Versatile Deployment:** Suitable for boardrooms, collaboration spaces, coworking desks, educational environments, executive offices, and hospitality installations.

Solutions that work for your meeting and conference room.

AV CONNECTIVITY BOX

From SEADA

Specifications:

Model	SC-MF06	SC-MF08
AV Connector Modules	USB C, USB A, HDMI, RJ45	
Cable Retractor Modules	USB C, USB A, HDMI, RJ45	
Power Socket Modules	UK/EU/Universal	
GaN Power Adaptor Module	1 x USB C, 1 x USB A	
Materials of Top	Aluminium	
Materials of Enclosure	Steel	
Body Dimensions (L x W x H)	235.2mm x 93.9mm x 133.5mm	190.1mm x 93.9mm x 133.5mm
Surface Dimensions (L x W)	235.2mm x 93.9mm	190.1mm x 93.9mm
Cut-out Dimensions	203mm x 84mm	158mm x 84mm
Colour	Black	

Modules:

SC-MF-UN	Universal Power Socket Module
SC-MF-GB	UK Power Socket Module
SC-MF-EU	EU Power Socket Module
SC-MF-AC	65W PD charger, USB-C: (65W), USB-A: 5V 3A/ 9V 2A/ 12 V 1.5A
SC-MF-HDMI	4K Female to Female HDMI Module
SC-MF-CAT6	CAT6 Ethernet Connectivity Module
SC-MF-2CAT6	2 CAT6 Ports Ethernet Connectivity Module
SC-MF-TC	Data/charge Type C Connectivity Module
SC-MF-U3	USB3.0 Connectivity Module
SC-MF-B	Blank Slot Module
SC-MF-2C	Dual grommet Module to work with retractable cable unit
SC-RET	Holder for retractable modules
SC-RTC	Retractable Type C cable Module
SC-RHDMI	Retractable HDMI cable Module
SC-RRJ45	Retractable RJ45 cable Module
SC-RUSB	Retractable USB3.0 cable Module
